T-497 Thinner

【Instruction】

T-497 Thinner is made to dilute with UR-487 **ONLY** for Vacuum Metallization.

【Dilution Ratio】

According to application and materials, we suggest the dilution ratio of UR-487 and T-497 is 1 : 0.5 for spraying ; UR-487 : T-497 is 1 : 1 for dipping. If materials are eroded, UR-487 can dilute with ST-6140 in 1 : 1 in advance, then dilute with T-497 base on application.

【Notices】

1. Please keep good air circulation in working place to avoid harming health due to long-term breathing in solvent. If chemicals splash into eye or on skin accidentally, immediately flush contacting area by huge amount of water then send to medical treatment.
2. T-497 Thinner must be stored in cool and dry indoor room under 40°C. The expired time is one year in unopened situation.
3. Please keep cap closing after opening and finish within one week to avoid affecting quality because of solvent evaporation.
